PROFILE SUMMARY

- AI-focused Software Engineer with experience in software development, workflow automation, data analysis, and intelligent systems development.
- Skilled in Python, SQL, Machine Learning, Computer Vision, Power BI, APIs, and workflow automation with hands-on experience building data-driven applications and automation solutions.
- Experienced in improving operational efficiency, automating reporting workflows, and developing scalable analytical systems through industry experience at Accenture and real-world technical projects.
- Actively seeking opportunities in Software Engineering, AI Engineering, Automation, and Data Analytics.

EXPERIENCE

Sports Media - Data Science Intern

Aug 2025 - Sep 2025

- Cleaned, preprocessed, and validated large datasets using Python and Excel to improve data quality and analytical accuracy.
- Performed exploratory data analysis (EDA) to identify trends, correlations, and performance patterns in sports-related data.
- Developed interactive dashboards and visual reports using Power BI and Tableau to support data-driven decision-making.
- Assisted in automating repetitive data collection and reporting workflows, improving operational efficiency by 30%.
- Applied Machine Learning concepts and analytical techniques to support predictive analysis and performance evaluation workflows.
- Collaborated with cross-functional teams to support analytics-driven project initiatives and reporting processes.

Accenture - Custom Software Engineering Associate

Oct 2022 - July 2024

- Analyzed and processed large-scale datasets to generate business reports and operational insights.
- Improved reporting accuracy to 97% through workflow optimization, data validation, and quality assurance checks.
- Collaborated with cross-functional teams to align technical deliverables with business requirements.
- Supported workflow automation initiatives to improve operational efficiency and reduce repetitive manual tasks.
- Worked in Agile-based environments supporting software development and process optimization activities.

PROJECTS

AI Accident Detection | *Python, Machine Learning, OpenCV, Computer Vision*

- Developed an AI-powered accident detection system capable of analyzing 500+ real-time traffic data points using Machine Learning and Computer Vision techniques.
- Applied image processing and object detection workflows to classify accident and non-accident scenarios from traffic datasets.
- Achieved 83% model accuracy and improved incident response efficiency by 20%.
- Optimized data processing workflows, improving overall system efficiency by 40%.
- Utilized Python-based analytical pipelines for real-time event monitoring and automated detection workflows.

Workflow Automation | *Python, Automation, APIs, Excel*

- Developed automation workflows to streamline repetitive operational and reporting tasks using Python-based automation techniques.
- Improved process efficiency by reducing manual intervention and optimizing workflow execution.
- Integrated structured data processing and automation pipelines supporting operational reporting workflows.
- Applied automation-driven solutions to improve productivity and workflow consistency.

Sales Dashboard Project | *Power BI, SQL, Excel*

- Developed an interactive dashboard to analyze sales performance, operational KPIs, and business trends.
- Created visual reports and automated reporting workflows supporting data-driven decision-making.
- Improved reporting visibility and reduced manual reporting effort through dashboard automation.

SKILLS

Programming & Development: Python, SQL, HTML, CSS, VBScript, Object-Oriented Programming (OOP), APIs, REST APIs, Git, GitHub, Visual Studio Code, SDLCL

AI / Machine Learning: Machine Learning, Deep Learning, Computer Vision, OpenCV, TensorFlow, Predictive Modeling, Data Preprocessing, Object Detection, Real-Time Analytics

Data Analytics & Visualization: Power BI, Tableau, Excel, Pandas, NumPy, Dashboards, KPI Analysis, Data Visualization, Reporting Automation

Tools & Platforms / Workflow: Azure, Workflow Automation, Process Optimization, Agile/Scrum methodologies

EDUCATION

Concordia University Wisconsin

Masters In Computer Science:Software Engineering | **GPA : 3.4**

Aug 2024 - May 2026

LEADERSHIP & CERTIFICATIONS

Microsoft Azure Fundamentals (AZ-900) | Microsoft Security Fundamentals (SC-900) | SQL and Relational Databases 101 | Accenture Technology Quotient
